

Policy Updates
For Information
July 9, 2026

Note: The following policies are presented for Board consideration as **policy updates**. This update process is separate from the division's regular policy review process. Policy updates are used for limited revisions including required changes based on newly enacted legislative updates to the Code of Virginia, revised legal or cross-references, or minor language or grammar changes.

These updates are intended to allow the Board to act on technical or code-based revisions in a timely manner. They do not constitute a full policy review and do not reset the five-year policy review timeline. Each policy below will remain on its regular review schedule for a more comprehensive staff review.
