Scenic Highway or By-way (see white shades parallel roadways in the map below)

State Scenic Highways or By-ways are areas within 200 feet of designated travel ways.

Question: Should new tower projects within a Scenic Highway or By-way be reviewed only by County staff or by the Board of Supervisors?

728 responses

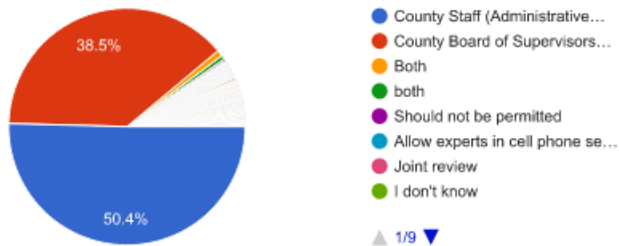

Tower Farms

Tower farms are areas where three or more towers are clustered together.

Question: Should new tower projects within tower farms be reviewed only by County staff or by the Board of Supervisors?

724 responses

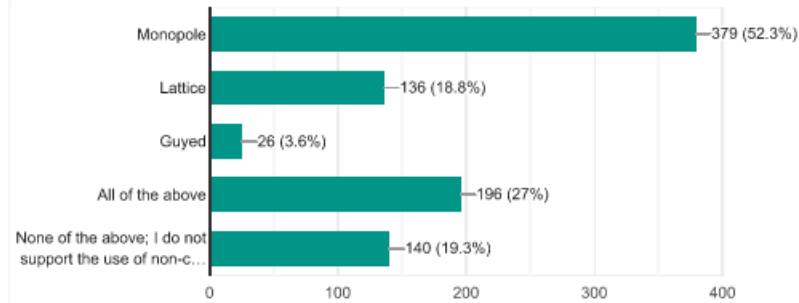

Non-concealed infrastructure means you can see the antennas, ancillary equipment and cabling on the tower but they provide the most flexibility for multiple service providers.

Which non-concealed tower facility do you prefer? Check all that apply.

725 responses

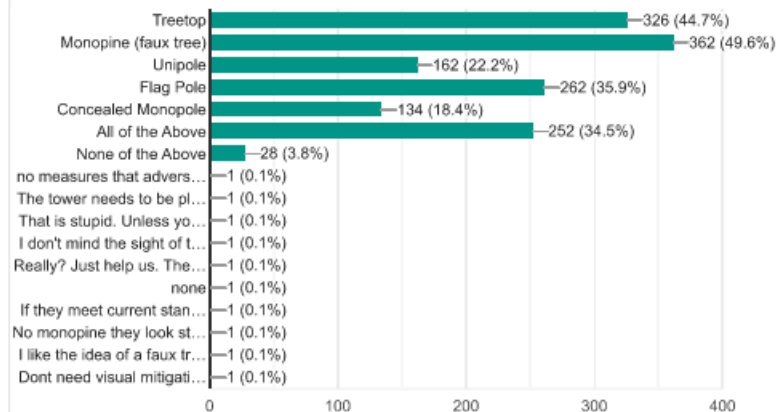

Visual mitigation measure means the antenna and all other equipment is disguised to look like something else.

Which visual mitigation measures for towers do you prefer? Check all that apply.

730 responses

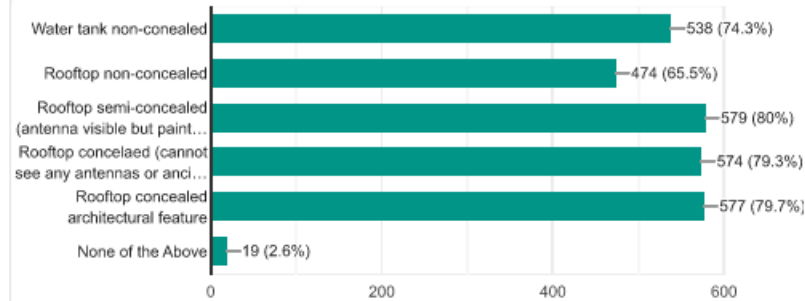

A "base station" is any existing structure other than a tower that can accommodate wireless antennas. Examples include rooftops, water tanks, stadium lights, electrical utility poles.

 Copy

Which base station do you prefer? Check all that apply.

724 responses

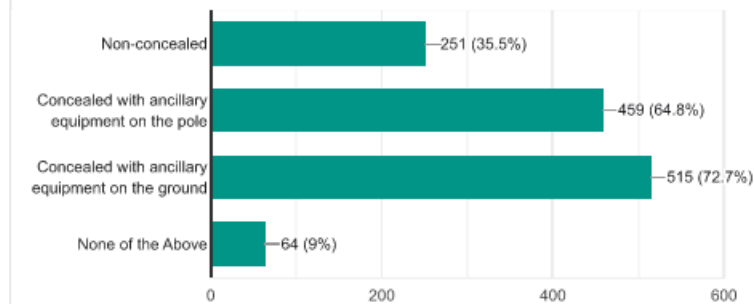

Small wireless facilities are shorter (50ft or less) and offer less coverage range.

 Copy

Which small wireless facilities do you prefer? Check all that apply.

708 responses

Which structure type do you prefer?

 Copy

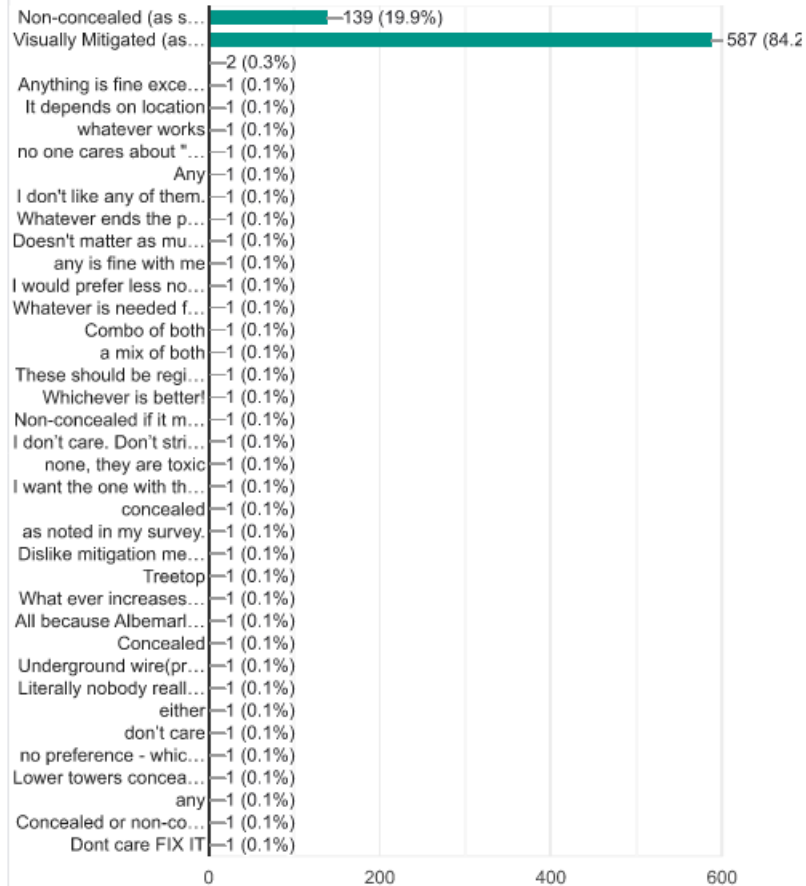

675 responses

Which design type do you prefer?

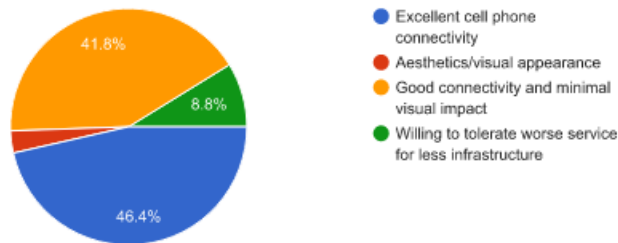

697 responses

What is most important to you?

[Copy](#)

728 responses

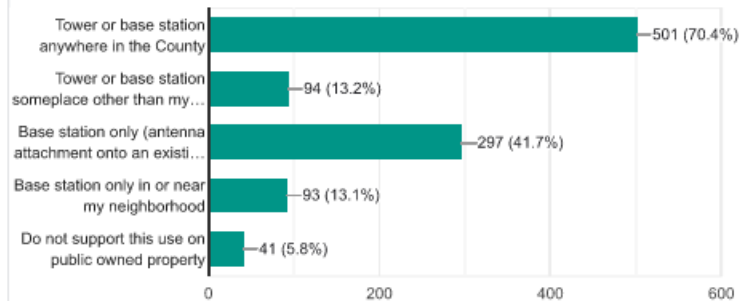

County owned, school board or quasi public property (fire, ambulance core etc.) could be used to fill in wireless network coverage and capacity gaps in certain areas. As landlord the County has more control over the tower or base station than it does as a regulatory agency.

[Copy](#)

Please check all that you would support.

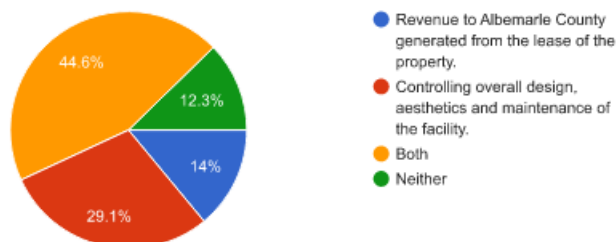

712 responses

If you support using Albemarle County owned, school board or quasi public property (fire, ambulance core etc.) property please choose which is more important to you.
