Education

Emily Logan

Education:

University of Chicago, BA (Statistics) Northwestern University, MS (Environmental Engineering)

Activities and Interests**Memberships in Civic, Not-for-Profit, and Similar Organizations:**

Interests:

- Sustainable development and infrastructure planning - Environmental conservation and water resources - Community resilience and climate adaptation

Reasons for Seeking to Serve on the Board, Commission, or Committee:

I'm interested in joining the 5th and Avon Community Advisory Committee to contribute my planning and data analysis experience to our community's development. As a Water Resources Engineer at Pueblo Water in Colorado, I managed the city's Conservation Plan and water infrastructure investments, working directly with stakeholders to balance community needs with resource constraints. More recently, as Director of Utility Data and Programs at EcoRebates and in my impact measurement work at Capital One and Atlas AI, I've developed frameworks for evaluating programs and making data-driven decisions about investments in communities. This technical background in infrastructure planning, stakeholder engagement, and impact evaluation would allow me to contribute meaningfully to the committee's work on master plan implementation. I'm particularly interested in how we approach development decisions in Albemarle County and how data can inform more equitable, sustainable outcomes. Serving on this committee also represents a commitment to deeper civic engagement. As a Albemarle County resident, I want to understand local priorities better and contribute constructively to discussions about our community's future. I see this as an opportunity to learn from other committee members and county staff while bringing a data-driven, solutions-oriented perspective to the table.

Emily Logan

Scottsville, VA 24590 | 609-306-0521 | emilylogan24@gmail.com

Experience

Scottsville, VA
01/2025 - current

EcoRebates

Director, Utility Data and Programs

- Define strategy, tactics and metrics to ensure accurate and efficient data collection and maintenance
- Ensure program data is accurate including program rules, qualifying products and coverage areas
- Collaborate with our client-facing teams to meet on-going solution needs and build a roadmap to support future product and solution growth.

Richmond, VA
10/2023 - 01/2025

Capital One

Insights Center Lead / Principal Data Scientist - Impact and Investment

- Spearhead cross-functional partnerships with internal and external researchers to develop innovative, data-driven strategies that support Capital One's mission to build thriving communities and enhance financial inclusion.
- Develop a data-driven framework for impact measurement across grant-funded projects, incorporating both quantitative and qualitative metrics to evaluate social and financial outcomes. This framework has since guided \$2M in community investments toward high-impact initiatives.
- Lead the strategic development of a data product to optimize grant-making decisions, leveraging public data and advanced analytics to create key indicators for nonprofits, improving transparency and efficiency in funding initiatives.
- Manage all KPIs and a \$1.5M budget for the Insights Center, driving 100% increase in external research publications and ensuring strategic alignment of resources to maximize impact.
- Develop customized strategies and statistical models for investing in nonprofit partners, ensuring alignment with Capital One's social impact goals, resulting in long-term, impactful partnerships.
- Direct the strategy for the Insights Center, overseeing the management of external contracts and ensuring seamless collaboration with external partners to amplify the Center's impact and meet business objectives.

Scottsville, VA
01/2023 - 10/2023

Atlas AI

Impact Data Science Lead

(Promoted from Spatial Data Science Project Manager)

- Led and developed a team of analysts in delivering high-quality, client-focused data products and models, driving key social impact projects across Sub-Saharan Africa, while ensuring that deliverables met both client and organizational goals.
- Spearheaded the integration of causal inference techniques in impact measurement, leading to more accurate estimates of social outcomes from infrastructure investments.
- Developed and led the company's impact portfolio, securing clients and writing RFPs to align with social impact and business growth, resulting in a portfolio that expanded Atlas AI's reach and influence in the social impact sector.
- Led all client engagement for the impact portfolio and strategy development, serving as the primary point of contact for nonprofit and private sector clients, driving successful project outcomes and achieving 95% client retention by delivering customized data solutions that aligned with client objectives.
- Directed cross-functional teams in project execution and client delivery, ensuring the seamless integration of data, product development, and client feedback to drive innovation and improve outcomes for stakeholders.

10/2021 - 01/2023

Spatial Data Science Project Manager

- Led the development of a predictive model using satellite imagery and machine learning to locate smallholder farmers in Senegal and Mali, directly addressing client challenges in agricultural productivity and poverty reduction.
- Managed all technical and strategic aspects of a \$250k research grant, applying satellite imagery and machine learning to assess the causal impact of electrification on livelihoods, develop a machine learning pipeline for building quality assessments, and track deforestation trends.
- Coordinated client feedback with product and software teams, ensuring that data products and platforms were continuously improved to meet evolving client needs and drive long-term partnerships.
- Led client engagement efforts by traveling to Rwanda, Kenya, and Senegal, represented Atlas AI at international conferences, and secured continued project support through effective relationship-building.

Pueblo, CO
08/2018 - 09/2021

Pueblo Water

Water Resources Engineer

- Managed over \$60M in water rights for the City of Pueblo, optimizing resource use and ensuring the efficient allocation of water supplies to meet both community and agricultural needs.
- Developed strategic partnerships with diverse stakeholders, including government agencies and private sector partners, to execute joint water projects that drove both environmental and financial benefits.
- Led climate resilience initiatives, working with cross-functional teams to assess and address the impacts of climate change on water infrastructure. Successfully implemented strategies to enhance the city's resilience to extreme weather events and shifting precipitation patterns.
- Generated \$10M in revenue annually by managing excess water supply accounts, leading negotiations with agricultural and industrial stakeholders to lease available resources.

Education

06/2015	Northwestern University – Evanston, IL Master of Science: Environmental Engineering
06/2014	University of Chicago – Chicago, IL Bachelor of Arts: Statistics, Environmental Studies

Key Projects

01/2024 - 10/2024	Banking in the Digital Age Capital One Authored an external research piece on 'Banking in the Digital Age,' conducting a thorough analysis of financial education and digital transformation. Coordinated stakeholder engagement across the organization, ensuring alignment and collaboration on the research findings.
10/2021 - 10/2023	British International Investment: Causal Impact Evaluation of Infrastructure Investments on Livelihoods Atlas AI Led client development and introduced a new product offering that reduced the timeline for impact evaluation from over a year to 10 weeks. Developed innovative causal inference pipelines to estimate the impact of electrification on livelihoods in the DRC using geospatial outcome data.
10/2021 - 10/2023	Rockefeller Foundation Research Grant: Interconnected Pathways to Development Atlas AI Led a large, international cross-functional team to deliver a \$5M, multi-year research grant aimed at developing a data platform to drive evidence-based development initiatives. Spearheaded client engagement, working closely with the Rockefeller Foundation to align on strategic goals, while managing collaboration across teams to ensure successful project delivery.
01/2021 - 09/2021	Water Efficiency Plan Pueblo Water Developed and managed Pueblo Water's first Conservation Plan, leading to a \$1M investment in city infrastructure. Partnered with local stakeholders to ensure alignment with policy goals, improving water efficiency by 30% over seven years.

Conference Presentations / Panels

February 2024	Financial Well Being Summit , McLean, VA • Presented research findings on opportunities for Black and Hispanic small business growth in Richmond
October 2022	Spatial Data Science Conference , New York, NY • Panel "Sustainability: Can We Pin the Problem" • Other panelists: Google, Climate Engine, Planet
August 2022	IEEE Power Africa Conference , Kigali, Rwanda • Invited to the 2-day Energy Access Workshop hosted by Rochester Institute of Technology (RIT) to discuss energy access in West Africa. Selected for data and technology expertise.

Skills

- Python (numpy, pandas, geopandas, scikit-learn, pytorch, tensorflow, rasterio, shapely, gdal), SQL, R
- AWS, GCP, Git
- Time Series Forecasting
- Causal Inference (Difference in Difference, Synthetic Controls, Matrix Completion)
- Impact Measurement Frameworks (Theory of Change, MEL, Logic Models)
- Product Management
- ArcGIS, QGIS, Sentinel-2, MODIS, Landsat

Albemarle County

5th and Avon Community Advisory Committee

Board Details

The Advisory Committees will provide assistance, feedback and input to County staff and the Board of Supervisors on community and county efforts related to implementation and support of the adopted Master Plan, in accordance with established county procedures. Advisory Committee members will communicate with their constituencies to increase understanding of and support for successful implementation of the Master Plan. The membership is broad-based to incorporate a variety of perspectives and ideas and to provide citizens, business people, and representatives of community groups a chance to be engaged and to be heard in a constructive and meaningful way.

The Committees will be a catalyst for helping foster a sense of community and work towards effective and efficient Master Plan implementation. Committees are a venue to discuss and provide comments on program and policy questions and/or proposals. Community Advisory Committees are an important venue for discussion and Committees can provide feedback and indicate preferences related to development proposals, although Committees do not have a legislative role in the development process.

- 1. Serve as liaisons by:
 - a) Contributing to public understanding of and encouraging support for Master Plan implementation;
 - b) Keeping the community informed of the needs, purposes, and progress of Master Plan implementation;
 - c) Encouraging interest and participation in community and county efforts related to the Master Plan and participation in public meetings; and
 - d) Enhancing collaboration among all community stakeholders.
- 2. Gather input from constituencies represented and bring these issues to the attention of staff and the Committee, and distribute information from the Committee back to constituents.
- 3. Stimulate creative thinking in examining implementation issues and identify ways of using community resources to meet implementation needs and challenges.
- 4. Provide advisory input, comments, and information to the Board of Supervisors on new and emerging policies, projects, and programs as requested.
- 5. Maintain a forward-looking agenda with respect to adopted Master Plans and policies of the Board of Supervisors. Committee meetings are not the appropriate venue to oppose adopted policy.
- 6. Commit to support and work to implement the adopted Master Plan.
- 7. Work with Staff to provide an annual report of activities to the Board of Supervisors in accordance with the Board of Supervisors' adopted Rules of Procedure for Boards and Commissions.

Overview

- ☐ **Size** 19 Seats
- ☐ **Term Length** 2 Year
- ☐ **Term Limit** 3 Terms

Additional

Length of Term

Members will be appointed for either a 2 or 3 year term to stagger the transition of new members on and off the committee. After initial appointments, terms will be for 2 years. While Members will be generally expected to serve no more than 2 terms, additional terms may be considered if desired and if the Board of Supervisors deems appropriate.

Frequency/Times for Meetings:

3rd Thursday of each month at 7:00 pm in Room B at the County Office Building - 5th Street, unless otherwise noted.

Membership:

The Board of Supervisors shall appoint 12-15 members to the Committee. Each member shall be a resident of or business owner in Albemarle County and the member’s home or business shall be located within the Committee’s geographic area. An individual may not serve on more than one Community Advisory Committee. The representations for the Committee will strive to appoint members from a geographically diverse representation from the following: • Residential neighborhoods • Business community • Institutional community • Developer community • Industrial community • Southwood Village Mobile Home Park • Woolen Mills • Representative for trails and parks • Other stakeholders as deemed appropriate by the Board

Qualifications

None.

Interests:

Reasons for Seeking to Serve on the Board, Commission, or Committee:

First and foremost, I care deeply about the protection of forests, farmland, and natural habitat areas in Albemarle County and beyond. I bring over 25 years of experience working professionally in the land trust community at the local, state, and national level. Locally, I spent 18 years working with the landowners of Albemarle County to protect our rural countryside while working for the Piedmont Environmental Council (PEC). I wish to continue that effort in a volunteer capacity by serving on the ACEA board. I am extremely familiar with the work and history of the ACEA and during my time at PEC I regularly attended, participated, and offered public comment at ACEA board meetings. I have also played a key role in advocating for a robust legislative framework for conservation in Albemarle County, across Virginia, and at the national level. In my current role with the Land Trust Alliance, I work with a team of dedicated regional program managers to build the capacity of nearly 700 member land trusts in the Eastern United States and help them follow nationally recognized Standards and Practices in order to accelerate the pace of conservation and ensure that this work will endure for generations to come.

Summary:

A mission driven land conservation professional with over 25 years of experience using knowledge of forestry and natural management, financial analysis, and real estate transactions to protect land. I thrive on taking an entrepreneurial, solutions-based approach and building relationships of trust with landowners that lead to positive conservation outcomes. I have excellent communication skills with demonstrated ability to serve as an organizational ambassador and spokesman. I regularly collaborate with local, state, and federal agency staff, public and private boards, and elected officials at all levels. I work to foster a team-oriented workplace culture with clear goals and shared successes.

Professional Experience:

Land Trust Alliance, Washington, DC (remote - Charlottesville, VA)

June 2022 - present

Position: Eastern Division Director of Field Programs

Responsible for developing and leading the Land Trust Alliance's field service strategies for nearly 700-member land trusts across a diverse thirty-two state region that spans the Midwestern, Southeastern, and Northeastern portions of the U.S.

- Lead a team of five regional program managers who deliver capacity building services to the staff and board of Land Trust Alliance organizational members and partners. The primary focus of this effort is to accelerate the pace of conservation in a way that will endure in perpetuity.
- Manage an annual budget of approximately \$6 million that includes over \$4.5 million in grant funds delivered to land trusts.
- Represent the Alliance and the land trust community with several partner organizations including the Network for Landscape Conservation and the Conservation Finance Network.
- Lead the field services team in the development and delivery of educational content and training programs for land trusts at regional, statewide, and national venues (virtual and in person). Topics range from board development and fundraising to land transactions and best practices in working with appraisers.

Piedmont Environmental Council (PEC), Charlottesville, VA

March 2004 - June 2022

Position Held: Land Conservation Officer

Led and coordinated PEC's conservation activities in the Charlottesville field office.

- Conducted a strategically targeted land conservation program focused on building relationships with landowners and their advisors. Used an entrepreneurial style to implement one of the most successful conservation programs in the Eastern United States.
- Key member of the development team with responsibility for soliciting gifts from and maintaining relationships with major donors, foundations, corporations, and family offices in the southern portion of PEC's service area.
- Served as an internal and external resource on conservation related tax, transactional, and financial matters. Formulated organizational positions and conducted lobbying efforts with elected officials and government agency staff at the local, state, and federal level.
- Represented PEC before statewide conservation boards and partners such as the Virginia Outdoors Foundation, Department of Forestry, and Virginia Land Conservation Foundation. Build and sustain relationships with the staff and boards of these partner organizations.
- Conducted conservation monitoring visits and resolve stewardship issues as needed.

Virginia United Land Trusts (VaULT), Virginia

2016 - January 2023

Position Held: Board Member, Treasurer (PEC representative & volunteer service)

- Serve as Board Treasurer for Virginia United Land Trusts (VaULT), a statewide service center for the land conservation community in Virginia.
- Build, monitor, and report on the VaULT annual budget in collaboration with VaULT staff and the organization's accounting firm.
- Collaborate with VaULT staff member and other board members to set strategic priorities for an annual work program that is focused on increasing capacity and rigor of the land conservation community in Virginia.

Eastern Shore Land Conservancy (ESLC), Queenstown, MD

March 2000 – March 2004

Position Held: Land Protection Specialist

- Identified, negotiated, and closed numerous types of land preservation real estate transactions including donated and purchased conservation easements, fee simple purchases, and pre-acquisitions for government agencies
- Maintained relationships with landowners, attorneys, surveyors, appraisers, title agencies, and other consultants.
- Worked in close partnership with the Maryland Environmental Trust, Maryland DNR, and a variety of local partners.
- Conducted outreach events and implemented strategic land protection priorities within ESLC's service area. Resolved stewardship issues on protected properties.

The Mountain Institute (TMI), Franklin, WV

December 1995 - March 2000

Position Held: Program Officer

- Developed, secured funding for, and managed a USAID supported Development Education program in partnership with the National Council for the Social Studies.
- Developed a series of university level research expeditions to protected areas in Peru and Nepal focused on comparing and contrasting these programs to US protected area management.
- Organized and convened a UNEP, UNESCO, and FAO sponsored international conference on the linkage between sacred mountains and environmental conservation.
- Created, recruited students for, and served as course director for a series of summer outdoor adventure programs in West Virginia.
- Assisted with budgeting, financial management, and strategic planning for TMI's Appalachian Program.

Wildwater Expeditions, Lansing, WV

May 1991-October 1995

Position Held: Raft Guide and Climbing Instructor

- Worked as a senior river guide, trip leader, and climbing instructor for the oldest adventure tourism company in West Virginia.
- Activities included sales, marketing, and program development as well as day-to-day management of up to 12 river staff and 80 guests at a time.

Barring Securities, New York

July 1990-May 1991

Position Held: Sales Assistant

- Assisted in the sale of securities for a major international, institutional brokerage firm. Tracked news, filings, and other corporate activities relating to securities, markets, and financial trends in various emerging markets.

Education:**Colorado State University** Fort Collins, CO**Degree:** Master of Science, Forest Sciences*August 1995***Focus:** Natural resource management and quantitative analysis techniques including linear programming, modeling, and Geographic Information System. Board Details

The Authority accepts, holds, protects, enforces and administers open-space land and interests therein, under the provisions of Chapter 17 of Title 10.1 of the Code of Virginia 1950, as specifically prescribed by Code Section 10.1-1701. Easements are generated by the selection of the rural preservation development option to encourage more effective land usage and by grantors for other purposes. The purposes shall not include power to acquire interests in land by purchase or by eminent domain without the express concurrence of the Board of County Supervisors, but shall be limited to accepting interests in land which from time to time may be voluntarily conveyed to the Authority by the owner or owners therefor. The purpose shall not include the power to issue bonds or to incur debt.

Overview

- ▢ **Size** 9 Seats
- ▢ **Term Length** 3 Year
- ▢ **Term Limit** N/A

Additional

Length of Term

Three years.

Frequency/Times for Meetings:

Meetings are held on the second Thursday of each month at County Office Building at 4:00 p.m..
Meeting are held only when Authority action is needed.

Membership:

State Code requires that there be no less than 5, nor no more than 17 members. Each member serves a term of three years and is eligible for reappointment. Members drew for terms at the beginning of this authority, so there are three terms expiring each year. Need not be a County resident to apply.

Qualifications

An ability to read and understand real estate plats and easements. A general understanding of Albemarle County zoning and subdivision ordinances. An interest in and dedication to the preservation and conservation of open-space land, water supply and historic resources.

Board Details

Review and make recommendations to the Board of Supervisors with regard to all transportation improvements on the Route 250 West corridor (250 Bypass to the Yancey Mill interchange). The Task Force will review, with public participation when necessary, each proposal prior to approval or inclusion in any request for funding. The Task Force will include in its consideration projects already in or proposed to be in the Six year Secondary and Primary Road Plans, short-term projects recommended in the Route 250 West Corridor Study, and other transportation proposals that may be presented by residents and businesses along the Route 250 West Corridor.

Overview

- ☐ **Size** 7 Seats
- ☐ **Term Length** 3 Year
- ☐ **Term Limit** N/A

Additional
