

**CONDITIONS OF EMPLOYMENT:
PERSONNEL FUNDED THROUGH OTHER THAN DISTRICT BUDGET**

The Board recognizes the fact that additional funding is available for personnel through various sources. The Board encourages its administration in the designing of projects which will enhance and stimulate its regular programs. The Board expects that the procedures utilized in employing such personnel will be consistent with policies and procedures in effect for regular district funded employees.

The Board shall, in all cases, retain control over the employment, fringe benefits and payment of all employees regardless of their source of funding except when superseded by federal law. With Board approval, temporary employees funded by sources other than the district budget may receive some or all of the fringe benefits available to regular district funded employees.
