

RELATIONS WITH COLLEGES AND UNIVERSITIES

To protect students and teachers from unnecessary intrusions that may disrupt instruction and regular school activities, requests from college students and professors shall be submitted directly to the Superintendent or his/her designee by the Dean or the head of the department of the college. Each project shall be fully described in order that proper judgment can be made as to the merits of the proposal and so that arrangements with the schools can be effected with a minimum of interference with the regular school program. If approved by the Superintendent or designee, all supporting documentation with the Superintendent's approval will be forwarded to the affected schools.
