## Actions/Rationale for Large Class Sizes – by School [Middle]

### Burley Middle School

- Honors Algebra – Enrollment in both Geometry and Algebra was high. It was decided that Algebra would have the large sections.
- 7<sup>th</sup> Grade 3<sup>rd</sup> Block – A staffing issue left fewer teachers in this particular block, so all classes had to be larger than other blocks.

### Henley Middle School

- Algebra 1 – There were a large number of parental overrides to teacher recommendations and late new student enrollments, which caused larger than expected enrollments in this course.
- Geometry – Scheduling conflicts caused imbalanced sections.
- Language Arts 7 & 8 – These classes were intentionally made larger so that Standard level classes could be smaller.
- Math 6 Honors – The course was intentionally made larger so that Standard level classes could be smaller.
- Language Arts 6 Adv/Honors – These classes were intentionally made larger so that Standard level classes could be smaller.
- Spanish Explore – The number of enrolled students was not enough to add another section, so all sections were larger.

### Jouett Middle School

- Algebra I – A summer program designed to prepare students for Algebra I was more successful than anticipated and caused higher enrollment in the Algebra I course.
- Language Arts 6 Adv/Honors – These classes were intentionally made larger so that the Standard level classes could be smaller.

## Actions/Rationale For Large Class Sizes – by School [Middle]

### School

#### Sutherland Middle School

- Spanish 7 – The courses are ½ block courses that share most of their students with Band. The necessary grouping for Band caused some sections of Spanish 7 to be larger than other sections.
- French 7 - The courses are ½ block courses that share most of their students with Band and Strings. The necessary grouping for Band and Strings caused some sections of French 7 to be larger than other sections.
- Math 6 Advanced – Reducing the student load in this section would cause other sections to be larger than desired.
- Math 7 Advanced/Honors – Two sections are larger than the rest to allow Algebra to have a reasonable number of students.
- Algebra I – Student scheduling issues prevented balancing of two larger sections.
- Geometry – Scheduling anomalies were discovered after the start of school and it was decided to not shift students after they had begun classes.
- Science 8 & Civics and Economics – An odd combination of students enrolled in Standard Science 8 and Adv/Honors Civics and Economics caused some of the sections to be larger.

### School

#### Walton Middle School

- Algebra I – Increased enrollment in 7<sup>th</sup> graders has caused this section to increase in size.
- Science 8 – The schedule did not permit a reduction in the size of this section.

## High School Mean Class Size

## Table 11

| School            | Number of Classrooms | Mean Size | Number of Classrooms | Mean Size |
|-------------------|----------------------|-----------|----------------------|-----------|
| Albemarle HS      | 353                  | 21.6      | 359                  | 21.4      |
