Dear Mr. Corker,

Walton Middle School Staff and Students would like to take this opportunity to thank you for the donation of 20 Ton of #3 stone on December 2, 2011 (a copy of the ticket is attached), as well as making arrangements for the stone to be delivered by D.S. Taylor Trucking. The APO UVA student organization almost completed the project and we will be working on it over the next few weeks.

We have had many positive comments from staff, students, parents and community members about how this improved the area under our big tree. Below is a picture of the students spreading the stone.

Once again, thank you for giving to our Walton community.

Sincerely,

A handwritten signature in cursive script that reads "Frances Wood".

Subject: Request for Gravel from Walton Middle School
Attachments: gravel.jpg; IMG_1078.JPG; IMG_1079.JPG

Good Morning Mr. Corker

This email is in response to the request of UVA for a donation of gravel for a project they will be completing for us this weekend.

We have an area in front of our school that has a very old pin oak tree in the center. We would like to reconstruct that area, which is currently very weed infested, with gravel and reading benches. (pictures attached of the area in question).

The type of gravel we would like is attached as a picture. We would like a good bed of gravel that would help with the erosion in this area. It would be the only ground cover. The area is approximately 35x45 feet with a 3 foot tree in the center.

Walton would be so grateful for this donation of gravel. Please feel free to contact me at the numbers below or by return email, if you have any questions about this request. Your donation will be recognized by our school community and our School Board.

Thank you so much for considering our and the UVA service fraternity's request.

Sincerely,
Frances Wood
School Secretary
