To be in accord with the Conceptual Plan, development shall reflect the following major elements within the development essential to the design of the development:

- building orientation;
- building mass, shape, and height;
- location of buildings and structures;
- turn lane design;
- location of parking areas;
- relation of buildings and parking to the street.

Minor modifications to the plan which do not conflict with the elements above may be made to ensure compliance with the Zoning Ordinance.

2. The area of assembly shall be limited to a maximum three hundred ninety nine (399)-seat sanctuary.
3. Side and rear setbacks shall meet commercial setback standards, as set forth in Section 21.7 of the Albemarle Zoning Ordinance, of fifty (50) feet for structures (excluding signs) and twenty (20) feet for parking lots and loading spaces adjacent to residential uses or residentially zoned properties.
4. All outdoor lighting shall be only full cut-off fixtures and shielded to reflect light away from all abutting properties. A lighting plan limiting light levels at all property lines to not greater than 0.3 foot candles shall be submitted to the Zoning Administrator or their designee for approval prior to approval of the final site plan.
