Classified Salary Increase

Classified Midpoint

- Every classified employee is on a pay grade with a minimum, midpoint & maximum rate - *midpoint is the competitive market rate*
 - Our retention strategy is to accelerate employees to midpoint, so we pay them a competitive salary sooner
- 
- Since 2008, we have only done this acceleration once

Salary Compression

All employees hired to same full time position, similarly qualified at time of hire, brought in at pay grade minimum, and have had good performance here ...

AFFORDABLE CARE ACT (ACA) CHANGING HEALTH INSURANCE

“Cadillac” Plan Excise Taxes (2018) based on total cost for individual coverage: 40% tax on amounts above the \$10,200 threshold for total cost of an individual plan. Our 2014 -2015 total cost for individual coverage is \$8,349.

HCEC recommends

- Reallocating rates- Changing our contribution strategy order to get our rates closer to usage among tiers, align with market and avoid the Cadillac tax.
- Four band structure for part-time employees

Benefits are **Changing**

Our challenges

- **Benefits inequities between legacy staff and Hybrid staff (new plan more robust than current)**
- **Administrative**
- **Communication**
- **Management of sick leave**

Benefit Updates Leave Benefits

Staff assessed how best to administer benefits to all employees, regardless of which VRS plan may apply:

- Looking at modifications to our leave program (accrual, sick leave bank)
- Providing short-term/long-term disability benefit to all employees
- Market data
- Employee engagement

Option 1: Implement one leave program for all benefits-eligible employees, to include employer-paid short-term and long-term disability benefits

Considerations for this option:

- Avoids benefit inequities resulting in morale issues
- Avoids the long-term complexities and cost of permanently administering two leave systems
- Provides a superior and more consistent leave benefit for employees

Option 2: Retain the current leave policies for Non-Hybrid Plan employees, create new leave policies, and hire at least one additional leave administrator

Considerations for this option:

- Employees would receive different leave benefits
- Slower increase in costs of VLDP mandated system as employee base transitions to mostly Hybrid membership (estimated 5-6 years)
- Will require 2 systems, manual calculations
- Confusing for managers

Benefit comparison: Mary is Hybrid, Andre is Plan 2; both hired in January 2014. Each have 15 sick days when out for personal medical leave in 2015:

Mary: Hybrid Plan- 100% pay for 7 days + 60% pay for 125 days

Andre: Current Plan- 100% pay for 15 days + 45 days of Sick Bank (if a member)
