**RE: SP201800014 Cash's Corner Transmission Line**

Dear Mr. Maurhoff,

The Albemarle County Planning Commission, at its meeting on January 15, 2019, by a vote of 6:0 recommended, approval of the above-noted petition to the Board of Supervisors.

Please note that this recommendation is based on the following conditions:

1. Supporting structures for the electrical transmission lines must remain within the existing right-of-way easement.
2. Supporting structures within 2,000 feet of Route 231 must be monopoles. All supporting structures elsewhere within the existing right-of-way easement must either be monopoles or H-poles.
3. All supporting structures must consist of weathering steel.
4. Monopoles and H-poles must not exceed a maximum height of 90 feet above the ground surface at the base of the poles.

If you should have any questions or comments regarding the above noted action, please do not hesitate to contact me at (434) 296-5832.

Sincerely,

Scott Clark  
Senior Planner  
Planning Division
