School Performance & Support Framework: Additional School and Regional Information

Federal Accountability & Identification for Support

Understanding Targeted Support and Improvement (TSI)

Federal Identification Requirements

State Obligations under Federal Law & Imposed Penalties

In addition to the reported performance category, a school may also be identified for federal support and improvement based on full school or student group performance:

- **Comprehensive Support (Full School Support):** CSI is the highest level of support and identification for schools, reserved for the lowest-performing 5% of Title I schools in the state. Schools are identified as CSI every three years. *CSI schools cannot receive a distinguished rating.*
- **Additional Targeted Support (Intensive Student Group Support):** ATSI is the middle tier of support. Schools with a group of “consistently underperforming” students for multiple years. ATSI schools are identified every three years. *ATSI schools are moved down one performance category, regardless of their overall score.*
- **Targeted Support (Student Group Support):** TSI is the lightest amount of state support, geared toward schools with one or more student groups who score below the state threshold for that school level. Schools are identified annually. *TSI schools are moved down one performance category, regardless of their overall score.*

Targeted Support & Improvement Identification

Increased State Thresholds

In Virginia, a school is federally identified as TSI if a subgroup of students falls below a threshold set by the highest-performing CSI school in overall score, and in math, reading, and science scores.

In SPSF, TSI schools are moved down one performance category, regardless of their overall score.

Thresholds for 2026 by School Level

- **Elementary Threshold:** **74.62 overall**
- **Middle School Threshold:** **67.26 overall**
- **High School Threshold:** **73.16 overall**

Identified School Trends Across Region 5

Charlottesville City Schools with 2nd Highest Mastery Average Across the Region

Division Name		Region	Total Schools	TSI Schools	ATSI / CSI	Support %	Avg Framework Score	Avg Mastery	Avg Growth
