RESOLUTION
OF THE
COMMONWEALTH TRANSPORTATION BOARD

March 20, 2008

MOTION

Made By: Mr. Davies Seconded By: Mr. Sterling
Action: Motion Carried, Unanimously

Title: Statewide Abandonment and Transfers in the Primary System of State Highways

WHEREAS, elements of the Primary System, including the Interstate System, may be abandoned, thereby extinguishing the road as a public way and facilitating the conveyance of the title to the right of way by the Board or the local government, whichever owns the fee, when:

(a) The road is no longer necessary as a public road, because a new road has been constructed that serves the same citizens as were served by the old roadway alignment (§33.1-148, Code of Virginia); or

(b) Following a public involvement process, initiated by the Commissioner or by a request of an interested landowner, the Department determines that a road is no longer necessary for the purposes for which highways are established (§33.1-145, Code of Virginia).

WHEREAS, elements of the Primary System and the Interstate Frontage Road System may be transferred to the secondary system of state highways (§33.1-35, Code of Virginia) when:

(a) The roadway no longer satisfies criteria for a road to be part of the State Highway System, usually as a result of a highway relocation project causing a new road to be built in lieu of the original road alignment but the old road remains necessary for public transportation purposes; or

(b) The local governing body has requested, or has otherwise been notified of, a transfer of a road to the county's secondary system of state highways, provided the road considered is not necessary for the purposes of or qualifies to be a part of the State Highway System or the Interstate Frontage Road System.

NOW, THEREFORE, BE IT RESOLVED, that the roadway segments identified below are hereby ordered abandoned as part of the Primary System of State Highways, effective this date, pursuant to the referenced Section of the *Code of Virginia,* 1950, as amended.
