Dear Mr. Taormina

Enclosed please find Waterworks Operation Permit No. 2109725 with Operation Permit Conditions dated March 24, 2025 issued by the Commonwealth of Virginia Department of Health, Office of Drinking Water (ODW). This permit is your authorization from the State Health Commissioner to operate the subject waterworks located in Louisa County in accordance with the *Waterworks Regulations*. This permit is not transferable. This permit does not suspend, minimize, or otherwise alter this owner's obligation to comply with applicable federal, state, or local laws and regulations or permits.

This permit is an amendment of the previously issued permit dated April 3, 2017, due to transfer of ownership from Ms. Melody Bowers and the property previously known as "Tavern on the Rail". This revised permit is effective on the date noted on the permit and replaces and nullifies the original permit, which should be destroyed on the date the amended permit becomes effective.

You will note that the permit indicates that this waterworks has a permitted capacity of 15,840 gallons per day. This limit is based on the maximum capacity of the system and shall not be exceeded.

Per 12VAC5-590-115 of the *Waterworks Regulations*, if you object to ODW's action, you have the right to an appeal and may send a written request for an administrative proceeding. Your request must be received no later than 30 days from the date you received this letter or the date it was mailed to you, whichever occurred first. Please use the attached form for this purpose and send it to this office.

We look forward to your continued cooperation in the maintenance and operation of this waterworks.
