Tax Map ID	51-6

The effects of proposed conditional use permit or rezoning applications – whether related to land size, building space, use type, or operational factors – can increase the time and effort required by staff to review and evaluate the project. Larger properties, more complex building designs, higher customer volumes, and greater numbers of employees all require additional staff time to review and process the project application. To account for the totality of the application review, a tiered fee structure has been created, which adjusts the base fee using specific characteristics of the proposed application according to the following factors.

Use this worksheet to calculate applicable project fees.

Zion United Methodist Church Farmers' Market CUP Proposal Supporting Documents

What: A community-based Farmers' Market, including a free food-pantry distribution.

Where: Zion United Methodist Church; 1674 Zion Rd. Troy, VA 22974

When: Saturdays, no earlier than 10:00am and no later than 4:00pm

Layout: Pictured Below (See Version 1 & Version 2)

Version 1

- Key:
- Blue = Parking; Spaces Numbered 1-40, Handicap Parking Spaces H1-H6
 - Gray = Vendor Area; Numbered V1-V10
 - Orange/Black Radiant = Flexible Spaces for Food Pantry, Food Trucks, or Vendors
 - Orange = Reserved for Food Pantry
 - Green Arrows & Box = Overflow Traffic Relief Plan (see below)

Version 2

Key: Blue = Parking; Spaces Numbered 1-40, Handicap Parking Spaces H1-H6
Gray = Vendor Area; Numbered V1-V10
Orange/Black Radiant = Flexible Spaces for Food Pantry, Food Trucks, or Vendors
Orange = Reserved for Food Pantry
Green Box = Overflow Traffic Relief Plan (see below)

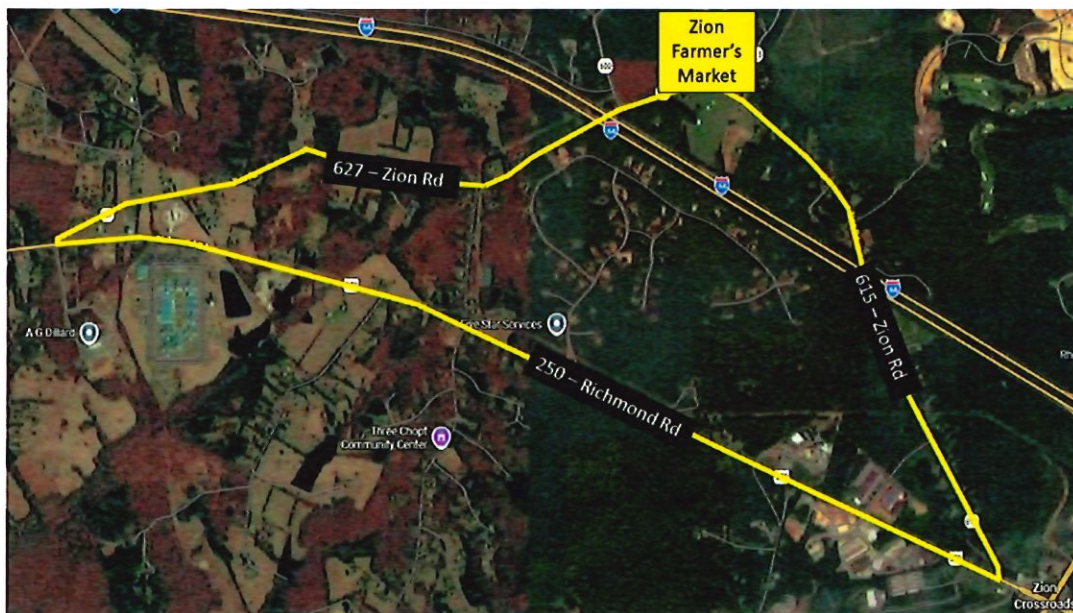

Note: In both versions, restrooms will be available for use inside the building. Additionally, the playground will be available for use, with clear signage that indicates that the use of the playground is "at your own risk." In nice weather, the grassy areas may be used for pedestrians, however we will not allow cars to drive or park on grass.

Overflow Traffic Relief Plan

While based on a 1:3 ratio of vendors to parking spaces, there is ample parking (46 spaces) for the maximum number of vendors (13). However, in anticipation of growth in popularity, we have designed the following traffic relief plan to prevent an impact on traffic flow and cars turning around in neighbor's driveways.

In Version 1: Parking Volunteers will direct cars to a "holding area" (HA on the layout picture above), where each car will receive a map and instructions for driving a 10-minute loop. Each car will be given a number based on the order they arrived to ensure fair access to the parking lot. When returning, cars will be directed to an open spot.

In Version 2: Parking Volunteers will direct cars to a "holding area" (HA on the layout picture above), where we will be able to park 5 cars in a "holding pattern" until a spot opens up. Should more than 5 spots be needed for overflow, each additional car will receive a map and instructions for driving a 10-minute loop. Each car will be given a number based on the order they arrived to ensure fair access to the parking lot.

Exiting the parking lot, cars will turn left onto Route 615/Zion Rd. They will drive 1.7 miles to turn right on Route 250/Richmond Rd. They will then drive 3.2 miles to turn right on Route 627/Zion Rd. They will then drive 2.3 where they will turn left into the parking lot.

We are currently seeking partnerships with local businesses and public spaces for which traffic might be redirected or suggested before or after attending the market.

Public Facilities Impact Report

Conditional Use Permit – Farmers' Market

- Fire & EMS
 - We recognize that any public event, no matter the size, will have the potential need for emergency services. In order to limit fire safety concerns before the need for emergency services, we will have a market manager on site at all times. In order to limit tripping hazards, which could result in the need for EMS, we will ensure walkways are clear and there is adequate open space between vendors.

- Law Enforcement
 - We recognize that any public event, no matter the size, will have the potential need for law enforcement services. In order to limit public safety concerns being prematurely reported to law enforcement, we will have a market manager on site at all times. Therefore, we will alert the Sherriff's office about which weekends we will offer a Farmers' Market. Additionally, being on church property, we will regulate a strict code of conduct that should limit concerns.

- Parks & Recreation
 - We will be providing a free community event that will share a common goal with Parks & Recreation. There should be no negative impact on their weekend events.

- Schools
 - As a weekend event, we do not anticipate any conflict with public or private schools. However, we do anticipate being able to support the public schools by providing nutritious food for families in our community who suffer from food insecurity.

- Solid Waste
 - While we anticipate an increase in solid waste production, our onsite dumpster has ample space and is serviced regularly, and therefore should not place any burden upon our solid waste provider.

- Administration
 - We do not anticipate any need for county administration. In order to limit concerns, we will strictly abide by the conditions of our CUP.
