This service will be required only once every three years and will only be needed for those staff members that are required or in need on re-certification.
5. Conduct periodic monitoring of euthanasia activities and supplies. On-site monitoring to occur twice yearly.
6. Provide general euthanasia guidance and instruction as necessary to Shelter Staff and Animal Control Officers.

This Schedule VI drug protocol will be for the treatment and prevention of communicable diseases within the shelter. Written protocols must comply with Virginia regulations and the guidance document 150-10 from the Virginia Board of Veterinary Medicine.
8. Provide training for administering Schedule VI drugs, as specified in the established protocols, for the treatment and prevention of communicable diseases within the shelter. Training must comply with the Virginia regulations and the guidance document 150-10 from the Virginia Board of Veterinary Medicine.
9. Examples of communicable disease that LCAS will need protocols and training for are:
