MONTHLY DEPARTMENT REPORT

Caseloads for SNAP and Medicaid have begun to level out over the last three years. Although unit vacancies have been filled, worker inexperience is still impacting processing timeliness. Contract benefits workers are providing case processing and additional support currently. Overdue Medicaid renewals are increasing due to staff that are still in the training phase of the work. The local agency is receiving assistance from another locality that can offer support to complete overdue renewals for Medicaid. The number may remain the same or increase in the short term until the new workforce have the training necessary to process cases.
