

## AIRPORT MANAGER REPORT

**October 2025**

### PROJECTS

Fuel Kiosk Relocation- The scheduled upgrade of the airport's fuel kiosk system is underway. The contractor has started to install new piping and a modern QTpod kiosk, which will be repositioned slightly farther from the fence line to improve accessibility and compliance. This marks the first kiosk replacement since the original installation in the late 1980s and will include significant technological enhancements, such as contactless card payment capability. Although the project was initially scheduled for completion by September 1, supply chain delays—specifically related to specialized piping components—have pushed the estimated completion to October. The project remains eligible for reimbursement through the Virginia Department of Aviation (DOAV).

### HANGAR WAITLIST

There are currently 58 individuals on the waiting list for hangar space.

### YTD FUEL SALES

\$115,221.42

JULY 2025-JUNE 2026
