Hello Councilmembers,

I am writing to enthusiastically support the proposed Saint Paul bicycle plan, and its aims of making biking a more accessible form of transportation for people across Saint Paul. As a new resident to Saint Paul I commute by bike as often as I can and appreciate the great infrastructure that already exists and am excited by the improvements proposed. There are so many urgent reasons to pass the plan, from climate change concerns to the rise in pedestrian and cyclist deaths. I encourage the city council to pass the plan, and support strong implementation of the new bike infrastructure detailed in the plan.

Best,
Jenn Pierson
55 Livingston Ave.

Hello Councilmember Bowie,

I'm writing to express my support for the St. Paul Bike Plan.

As a zero car household in the Rondo neighborhood, we depend on quality transit and bike infrastructure to get to work and anywhere else we need to go. Although St. Paul has made some strides in the past decade, many areas of the city still feel neglected. Although not perfect, I hope you will also see the benefits possible from the vision outlined in the current draft of the bike plan. I hope we can make St. Paul the city with the best transportation freedom and equity in the region, and I believe the bike plan is an important part of achieving that goal.

Thanks,

Sten Johnson
