---

hello this is vicky cody i live at 289 E 5th st saint paul 55101 condo #606 this is in regards to the downtown improvement special service district meeting but i am voting no to because it has been sneaky this is nothing more than a cleaning up garbage needles and other things that you mentioned into in the what's your message mentioned period the point is this is nothing more than a new tax this is not going to be helping anything other than what what you're doing is putting all of the residents and all of the businesses in charge of picking up all the garbage paying for it and but for for the people that come to the baseball field and miami town or the people that go to the concert from the other end of town our our neighborhoods are affected by them but the problem is not the problem i the corona problem is helping the people that are leaving their dirty needles laying around and i'm tired of it so absolutely no i am saying no to this if it was a different thing yes it would have been fine but no and it was no transparency from the beginning to the end goodbye
