You don't often get email from gd3mail@gmail.com. [Learn why this is important](#)

I am writing in reply to File #19277 regarding the proposed Wheelock Pkwy/Grotto St (2026) Street Reconstruction Phase II.

I am concerned because (as a layperson) the proposed assessment seems to be excessive. Additionally, I am wondering how the proposed assessments were determined and if any and all policies, procedures, and relevant statutes were properly implemented. I know through conversation with several neighbors in the area that they share my concerns.

In light of the above, and in order to potentially preserve my right to appeal, I hereby object to the proposed assessment.

Respectfully submitted
