Subject: RE: 756 Cleveland Ave S - district council form

Think Before You Click: This email originated **outside** our organization.

Jeff,

The HDC Development Committee met last night and voted to support the wine and beer license for Joann and her son. They wanted to waive the waiting period, but I told them I wasn't sure we could do that anymore.

Can the HDC still help speed up the process? She did say she lost two customers on Monday when they found out they couldn't have a glass of wine while they ate. The HDC has never heard a word from neighbors, since Vina was given their wine and beer license.

I will send a formal resolution if that is what the City needs.

Thank you very much,

Kathy
