Planning													
Planning Goal: Maintain an efficient and effective solid waste management system.													
	Objective 1: Coordinate and facilitate efficient coordinated and fiscally sound solid waste management contracts across localities.												
Strategies	Use Request for Proposals (RFPs) when soliciting contracts when feasible instead of Invitations to Bid.			Localities					X				
	Include cooperative procurement language in contracts that would allow the other members of the SWPU to use the contract services under the same cost, terms, and conditions.			Localities									
	Encourage public-private partnerships for waste management when cost efficiencies can be achieved.			Localities									
	Maintain a regional centralized archive at the TJPDC for reporting to DEQ and cataloging all locality waste management contracts.			TJPDC									
	Objective 2: Promote planning district collaboration with localities in preparing for future system capacity needs.												
Strategies	Review waste streams, markets, programs, and system capacity regularly.												
	Objective 3: Realize economies of scale through regional collection, disposal, and recycling opportunities.												
Strategies	Identify and reduce barriers to regional coordination of contracts.			Localities									
	Coordinate contracts for special waste collection.			Localities									
	Jointly sponsor convenience centers for communities straddling jurisdictional lines or adjacent communities in separate jurisdictions.			Transfer Stations/Localities									
Planning Goal 2: Source Reduction and Reuse Goal: To reduce the quantity of waste generated through source reduction, reuse, and other waste reduction techniques.													
	Objective 1: Support the localities in expanding reuse infrastructure and culture in the region.												
Strategies	Expand the reuse of building materials.			Transfer Stations/Localities									
	Promote online tools, such as Freecycle, Teracyle, and Craigslist that facilitates the reuse of materials before they enter the solid waste stream.			TJPDC									
	Educate the public on the importance of and services available source reduction, reuse, and recycling through various media: website, brochures, fair display, social media, etc.			TJPDC									
	Promote home composting through workshops when feasible and educational materials.			Gardners-Home composting,									
	Support and expand organic waste collection.			Gardners-Home composting,									
	Reach out to the private sector on waste reduction issues and environmentally preferable purchasing. (come back)			NGO									
	Establish (Fluvanna/Greene?) Environmental Management Systems or source reduction initiatives in localities where they do not currently exist in			Localities									
	Objective 2: Explore opportunities with the localities and their economic development departments on how reuse may contribute to the local economy.												
Strategies	Assess opportunities to facilitate industrial symbiosis between existing public and private facilities or through recruitment of industries that can use waste generated in the region as raw material for production.												
Recycling Goal 1: Continually improve recycling rate to meet the state-mandated rate and maintain a regional rate that is competitive with the national rate.													
	Objective 1: Achieve a minimum 25% recycling rate in each participating locality while aiming for a minimum of 45% as a region.												
Strategies	Maintain a map of all recycling facilities in the region. Identify services offered by each; make them available to the public.			TJPDC									
	Ensure local government comprehensive plans and ordinances consider issues related to siting of recycling facilities.			Localities									
	Promote electronics recycling opportunities available to the community.			Localities									
	Develop recycling programs in those schools where they do not currently			Locality Schoolboards									
	Objective 2: Assist haulers in providing annual recycling rates.												
Strategies	Create a uniform reporting mechanism for haulers to use in reporting rates to localities.			TJPDC									
	Send out recycling-rate reporting mechanism once a quarter.			TJPDC									
	Objective 3: Divert increased yard waste and food scraps from the landfill.												
Strategies	Continue to support and promote annual Christmas Tree leaf collection programs.			Localities									
	Support a commercial scale composter to serve the region.			Localities									
	Encourage commercial composting by schools, institutions, and the private			Localities/Schoolboards									

Recycling Goal 2: Stimulate demand for a circular economy.														
	Objective 1: Use local government purchasing power to increase demand for products manufactured with post-consumer recycled materials.													
Strategies	Abide by environmentally preferable purchasing (EPP) guidelines whenever possible.			Localities										
	Expand EPP guidance			Localities										
	Adopt EPP policies			Localities										
	Objective 2: Encourage the collection of clean recyclable commodities													
Strategies	Promote source-separation as a preferred method of recycling.			RSWA-reach out to Phil/Local Convenience Centers										
	Create educational campaigns and materials for the public.			TJPDC/Localities										
	Promote and coordinate on regional marketing streams.			Private Sector										
	Objective 3: Promote the use of recycled material.													
Strategies	Reuse construction demolition debris (CDD) for projects.			Localities										
	Use PSAs to inform the public (celebrate the local opportunities within the circular economy).			TJPDC										
Resource Recovery and Waste Goal 1: Provide environmentally sound solid waste collection facilities that are convenient to the region’s residents.														
	Objective 1: Maximize the efficiency of, and anticipate the future need for, additional or expanded collection facilities.													
Strategies	Use the recommended regular solid waste systems review to inform the creation of new transfer station capacity or other solid waste management facilities/programs.			Localities										
	Reduce demands on disposal and recycling infrastructure by promoting conscious consumerism.			TJPDC/Localities/ Possible NGOs										
	Objective 2: Plan carefully for convenience centers and minimize the need for future landfills.													
Strategies	Engage many stakeholders in the planning and location of convenience centers.			RSWA-reach out to Phil/Local Convenience Centers										
	Minimize the amount of waste generated by implementing the waste management hierarchy.			Joint responsibility										
Resource and Recovery Waste Goal 2: Comply with Federal and State regulations Goal.														
	Objective 1: Maintain compliance with state and federal regulations on closed landfills.													
Strategies	Exceed or maintain compliance with Federal and State while improving upon spaces.			Locality
